ATLANTA, February 24, 2020 -- Carter’s, Inc. (NYSE:CRI), the largest branded marketer in North America of apparel exclusively for babies and young children, today reported its fourth quarter and fiscal 2019 results.
"We achieved our fourth quarter sales objective with growth driven by our retail and international businesses," said Michael D. Casey, Chairman and Chief Executive Officer. "During the November and December holiday period, we saw good demand for our brands with comparable retail sales up over $2 \%$. Profitability in the quarter was lower than last year, and reflects continued investments in our business and higher inventory-related costs.
"For the year, Carter's is reporting a record level of sales, earnings and cash flow, and its 31st consecutive year of sales growth. In 2019, Carter's strengthened its leading share of the $\$ 27$ billion U.S. young children's apparel market. Our growth was driven by the success of our exclusive brands designed for the largest retailers of young children's apparel in North America, and stronger omnichannel capabilities in our direct-to-consumer business.
"In 2020, we are forecasting good growth in sales and profitability enabled by the strength of our brands and extensive market distribution capabilities throughout the world."

## Consolidated Results

Fourth Quarter of Fiscal 2019 compared to Fourth Quarter of Fiscal 2018
Consolidated net sales increased $\$ 14.1$ million, or $1.3 \%$, to $\$ 1.1$ billion, principally driven by growth in the Company's U.S. Retail and International segments. Favorable changes in foreign currency exchange rates improved consolidated net sales in the fourth quarter of fiscal 2019 by $\$ 0.3$ million.

Operating income in the fourth quarter of fiscal 2019 decreased $\$ 7.8$ million, or $4.6 \%$, to $\$ 162.8$ million, compared to $\$ 170.6$ million in the fourth quarter of fiscal 2018. Operating margin in the fourth quarter of fiscal 2019 decreased 90 basis points to $14.8 \%$, compared to $15.7 \%$ in the fourth quarter of fiscal 2018.

Adjusted operating income (a non-GAAP measure) decreased $\$ 8.3$ million, or $4.9 \%$, to $\$ 162.2$ million, compared to $\$ 170.5$ million in the fourth quarter of fiscal 2018. Adjusted operating margin (a non-GAAP measure) decreased 100 basis points to $14.7 \%$, compared to $15.7 \%$ in the fourth quarter of fiscal 2018. This decline reflected higher inventory provisions, lower royalty income due to business model changes, and increased investments in technology, partially offset by higher sales and profitability in U.S. eCommerce and the elimination of operating losses in China due to changes in the Company's business model in this market.

Net income in the fourth quarter of fiscal 2019 decreased $\$ 5.4$ million, or $4.1 \%$, to $\$ 125.1$ million, or $\$ 2.82$ per diluted share, compared to \$130.6 million, or \$2.83 per diluted share, in the fourth quarter of fiscal 2018.

Adjusted net income (a non-GAAP measure) decreased $\$ 6.2$ million, or $4.7 \%$, to $\$ 124.7$ million, compared to $\$ 130.9$ million in the fourth quarter of fiscal 2018. Fiscal 2018 results included $\$ 15.9$ million in net charges, principally related to the Toys "R" Us bankruptcy and the Company's business model change in China. Operating margin in fiscal 2019 decreased 70 basis points to $10.6 \%$, compared to $11.3 \%$ in fiscal 2018.

Adjusted operating income (a non-GAAP measure) decreased $\$ 6.3$ million, or $1.6 \%$, to $\$ 401.0$ million, compared to $\$ 407.3$ million in fiscal 2018. Adjusted operating margin decreased 40 basis points to $11.4 \%$, compared to $11.8 \%$ in fiscal 2018, reflecting changes in customer and product mix within U.S. Wholesale, higher performance-based compensation, lower royalty income due to business model changes, and increased investments in technology, partially offset by higher sales and profitability in U.S. eCommerce and the elimination of operating losses in China due to the Company's business model change.

Net income in fiscal 2019 decreased $\$ 18.3$ million or $6.5 \%$, to $\$ 263.8$ million, or $\$ 5.85$ per diluted share, compared to $\$ 282.1$ million, or $\$ 6.00$ per diluted share, in fiscal 2018. Fiscal 2019 earnings included
after-tax net charges totaling $\$ 27.9$ million, comprised of $\$ 6.0$ million related to early extinguishment of debt, the Skip Hop tradename impairment charge, organizational restructuring, and the favorable changes in estimates and recoveries noted above. From the beginning of fiscal 2007 through fiscal 2019, the Company has returned a total of $\$ 2.1$ billion to shareholders through share repurchases and dividends, and retired approximately $42 \%$ of its outstanding shares.

The share repurchase authorization announced today permits the Company to repurchase shares of its common stock up to \$500 million, in addition to approximately $\$ 172$ million remaining under previous authorizations. Such purchases may be made in the open market or in privately negotiated transactions, with the level and timing of activity being at the discretion of the Company's management depending on market conditions, stock price, other investment priorities, and other factors. These share repurchase authorizations have no expiration date.

Future declarations of quarterly dividends and the establishment of related record and payment dates will be at the discretion of the Company's Board of Directors based on a number of factors, including the Company's future financial performance and other considerations.

## 2020 Business Outlook

For fiscal 2020 (a 53 week fiscal year), the Company projects net sales will increase approximately $2 \%$ to $3 \%$ and adjusted diluted earnings per share will increase approximately $4 \%$ to $6 \%$ compared to adjusted diluted earnings per share of $\$ 6.46$ in fiscal 2019. This forecast for fiscal 2020 adjusted diluted earnings per share excludes anticipated expenses of approximately $\$ 10$ million to $\$ 12$ million related to organizational restructurings. Such restructurings include streamlining the Company's retail field organization, improving distribution center staffing models, and relocating and consolidating various functions into its Atlanta office.

For the first quarter of fiscal 2020, the Company projects net sales will be comparable to the first quarter of fiscal 2019 and adjusted diluted earnings per share will be approximately $\$ 0.60$ compared to adjusted diluted earnings per share of $\$ 0.87$ in the first quarter of fiscal 2019. This forecast for first quarter fiscal 2020 adjusted diluted earnings per share contemplates: 1) increased investments in information technology, new stores, and marketing, and 2) lower royalty income reflecting the conclusion of a licensing agreement. This forecast for first quarter fiscal 2020 adjusted diluted earnings per share excludes anticipated expenses of approximately $\$ 10$ million to $\$ 12$ million related to organizational restructurings.

The Company is closely monitoring the outbreak of a respiratory illness caused by a novel coronavirus that was first detected in Wuhan, China. The virus has affected several industries within China, including textile production and manufacturing. The Company plans to source approximately $15 \%$ of its products from China in 2020. Additionally, the Company's suppliers throughout Asia source a significant amount of fabric from China. Travel restrictions delayed the return of factory workers following the recent conclusion of the Chinese New Year holiday. The Company's suppliers have not yet determined, with certainty, the impact of production delays. Accordingly, the financial impact of any delayed receipts from China is not known at this time. The Company's guidance for fiscal year 2020 and the first quarter of fiscal 2020 does not include any adjustments for potential effects of the coronavirus situation.

The Company believes these non-GAAP measurements provide investors with a meaningful view of the Company's core operating results, and are the same measurements used by the Company's executive management to assess the Company's performance.

## Adoption of New Accounting Standards

Beginning in fiscal 2019, the Company adopted the Financial Accounting Standards Board’s Accounting Standards Codification No. 842, Leases ("ASC 842"), which requires substantially all of its operating leases, including retail leases, to be recorded on the balance sheet as a right-of-use asset and lease liability. The adoption of ASC 842 had a material impact on the Company's consolidated balance sheets, but did not have a material impact on its consolidated statements of operations or statements of cash flows.

EBITDA and Adjusted EBITDA are supplemental financial measures that are not defined or prepared in accordance with GAAP. We define EBITDA as net income before interest, income taxes and depreciation and amortization. Adjusted EBITDA is EBITDA adjusted for the items described in the footnotes (a) (f) to the table above.

We present EBITDA and Adjusted EBITDA because we consider them to be important supplemental measures of our performance and believe they are frequently used by securities analysts, investors and other interested parties in the evaluation of companies in our industry. These measures are used by the Company's executive management to assess the Company's performance.

The use of EBITDA and Adjusted EBITDA instead of net income or cash flows from operations has limitations as an analytical tool, and you should not consider them in isolation, or as a substitute for analysis of our results as reported under GAAP. EBITDA and Adjusted EBITDA do not represent net income or cash flow from operations as those terms are defined by GAAP and do not necessarily indicate whether cash flows will be sufficient to fund cash needs. While EBITDA, Adjusted EBITDA and similar measures are frequently used as measures of operations and the ability to meet debt service requirements, these terms are not necessarily comparable to other similarly titled captions of other companies due to the potential inconsistencies in the method of calculation. EBITDA and Adjusted EBITDA do not reflect the impact of earnings or charges resulting from matters that we consider not to be indicative of our ongoing operations. Because of these limitations, EBITDA and Adjusted EBITDA should not be considered as discretionary cash available to us for working capital, debt service and other purposes.

The Company evaluates its net sales on both an "as reported" and a "constant currency" basis. The constant currency presentation, which is a nonGAAP measure, excludes the impact of fluctuations in foreign currency exchange rates that occurred between the comparative periods. Constant currency net sales results are calculated by translating current period net sales in local currency to the U.S. dollar amount by using the currency conversion rate for the prior comparative period. The Company consistently applies this approach to net sales for all countries where the functional currency is not the U.S. dollar. The Company believes that the presentation of net sales on a constant currency basis provides useful supplemental information regarding changes in our net sales that were not due to fluctuations in currency exchange rates and such information is consistent with how the Company assesses changes in its net sales between comparative periods.
